PROFESSIONAL SUMMARY

Network Security Engineer with hands-on experience in managing enterprise network infrastructure, including firewalls, VPNs, and routing protocols. Skilled in Fortinet, Palo Alto, and Checkpoint technologies with a strong focus on incident management and network security operations.

AWS Certified Solutions Architect with growing expertise in cloud security and scalable infrastructure design. Proficient in Python for automation and experienced in applying machine learning techniques for data-driven problem solving.

SKILLS

Network Security:

Firewall (Fortinet, Palo Alto, Checkpoint), VPN (IPSec/SSL), NAT, Network Security

Networking:

Routing & Switching (OSPF, VLAN, STP, BGP Basics)

Cloud & Security:

AWS (EC2, S3, VPC, IAM), Cloud Architecture

Programming & Tools:

Python (Automation), Linux, Git

AI/ML (Support):

Scikit-learn, TensorFlow, Pandas, NumPy

Other:

Incident Management, Network Monitoring, Troubleshooting

EXPERIENCE

Network Engineer

Indovision Services Pvt Ltd |HFCL New Delhi

Apr 2026 – Present

- Managed and configured enterprise firewalls (Fortinet, Palo Alto, Checkpoint)
- Handled real-time network and security incidents, ensuring minimal downtime
- Configured VPNs (IPSec/SSL) for secure communication and remote access
- Worked on routing and switching (OSPF, VLAN, STP) in production environments
- Performed log monitoring and analysis for performance and security issues
- Supported change management and deployment activities

Network Engineer

Intechfy Solutions | Bengaluru

Nov 2024 – Apr 2026

- Assisted in deployment and configuration of firewall solutions (Fortinet, Palo Alto)
- Supported network operations including routing, switching, and VLAN configuration
- Troubleshoot connectivity and performance issues across enterprise networks
- Configured NAT, VPNs, and access control policies
- Participated in monitoring and maintaining network stability

PROJECTS

Ethereum Network Security – Eclipse Attack Detection

- Developed ML model to detect malicious nodes in blockchain networks
- Achieved 92% accuracy using Scikit-learn
- Performed feature extraction and anomaly detection on network traffic

LSTM-Based Stock Price Prediction

- Built time-series forecasting model using LSTM (TensorFlow/Keras)
- Improved prediction accuracy by 18%
- Applied preprocessing using Pandas and NumPy

EDUCATION

B.Tech – Information Technology

Vellore Institute of Technology (VIT), Vellore

2021 – 2025 | CGPA: 7.76

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- AWS Certified Cloud Practitioner
- Google Cybersecurity Professional Certificate
- Data Analytics Essentials – Cisco Networking Academy
