EDUCATION

Vellore Institute of Technology <i>Bachelor of Technology - Information Technology 7.76 CGPA</i>	Vellore, India 2021 - 2025
--	-------------------------------

SKILLS SUMMARY

Programming Languages	Python, C, C++, Java
Frontend Technologies	JavaScript, HTML, CSS, Bootstrap
Cloud Computing	Worked on cloud-based solutions on AWS and Google Cloud
Data Analysis	Data cleaning, preprocessing, PowerBI for creating data visualizations

CERTIFICATIONS

Google Cybersecurity Professional – Coursera	March 2024
Data Analytics Essentials – Cisco Networking Academy	March 2024
AWS Certified Cloud Practitioner – AWS Academy	January 2024
AWS Certified Solutions Architect Associate – AWS Academy	January 2024
Front-End Web Development using JavaScript and React.js Microsoft Bootcamp – Devtown	March 2024

EXPERIENCE

Zeeweesoftware Full Stack Developer Intern	Indore April 2025 – present
- Developed responsive webpages using HTML, CSS, JavaScript, and React.js, ensuring better user experience. - Built backend services in Python (Flask) for handling user authentication and data processing. - Designed and optimized SQL database schemas for storing and retrieving application data efficiently. - Integrated frontend with backend APIs, improving overall system performance and usability.	
MedTour Easy Project Intern	Remote June 2024 – July 2024
- Applied machine learning and visualization to support data-driven decision-making. - Improved processing speed by 30% using Python, Pandas, NumPy, and TensorFlow. - Managed projects end-to-end, delivering results ahead of schedule. - Presented insights clearly to stakeholders, leading to a 15% improvement in key business metrics.	

PROJECTS

LSTM-Based Stock Price Prediction Model: Improved accuracy by 18% using LSTM with TensorFlow/Keras, Pandas, and NumPy; capturing temporal patterns for more reliable forecasting. Feature Extraction of Network Traffic in Ethereum Blockchain Network Layer for Eclipse Attack Detection: Achieved 92% accuracy with ML on blockchain network traffic using Python and Scikit-Learn; implemented feature extraction and anomaly detection to identify malicious patterns effectively.
--

POSITIONS OF RESPONSIBILITY

Core Committee Member, Soft Computing Research Society (SCRS)	July 2022-May 2024
- Collaborated with research professionals and fellow students to organize workshops and conferences on topics related to soft computing and artificial intelligence. - Contributed to academic discussions and events, helping to promote research in cutting-edge computational techniques which helped in overall growth of the club and individual.
